Alpha Technologies Product End of Life Notice: 120V 650W Rectifier

Date: August 10th, 2016

Model #: 010-571-20

Dear Valued Customer:

Alpha's 120V, 650W rectifier has been providing our customers with reliable performance for many years. As a result of declining demand Alpha Technologies is announcing the end-of-life for the 120V version of the 650W rectifier.

As a valued customer, Alpha is extending you this last time buy opportunity; after which the product will be removed from active distribution. We will be happy to work with you to determine the quantities you may wish to order in this last-time buy, based on a non-cancellable, non-returnable purchase order. It is highly recommended that orders be placed as far as possible in advance of the deadline. We apologize for the short notice and will attempt to accommodate all requirements.

Last time buy purchase orders must be received no later than November 1st, 2016 and customers must take delivery by April 30th, 2017

Alpha will still continue to manufacture the standard 650W rectifier (010-570-20) which is backwards compatible with the 120V version (010-571-20).

No response to this notification is required. Should you have any questions or comments regarding discontinuation(s), or need information about the alternative products, please address these to your Alpha sales representative or contact us directly at 1-800-667-8743.
