Alpha Technologies Product End of Life Notice: AMPS24 HP & External Maintenance Bypass Switch

Date: February 28, 2017

Model #: AMPS24 & 125 Bypass Switch

Part #: 0260011-XXX, 0260012-XXX & 0200026

Dear Valued Customer,

Alpha Technologies Ltd., is discontinuing sale of the AMPS24 HP Modular Inverter System.

It will be replaced with the new AMPS HP2 modular inverter product lineup, intended for the critical facility market. The versatile AMPS HP2 can be configured for use as an inverter or as a UPS, in either single, split, or three-phase arrangements. 19-inch and 23-inch rack-mount versions are available in 10-30kVA inverter configurations. All AMPS HP2 products use the same core modular inverter modules (AIM 2500) and are controlled by Alpha's CXC HP controller. New External Maintenance Bypass Switches will be offered as well, with higher short circuit ratings.

Some of the key features of the AMPS HP2 are:

- Improved control, monitoring & functionality with CXC HP controller integration
- Improve craft connectivity
- Standardization on system configuration - MBS & TVSS

Please see attached spreadsheet for cross reference to new models available.

AMPS 24 EOL Part
Number and Cross Re

Finally, the AIM 1500 module will still be available for capacity upgrades.

No response to this notification is required. Should you have any questions or comments regarding discontinuation(s), or need information about the alternative products, please address these to your Alpha sales representative or contact us directly at 1-800-667-8743.
