ALPHA TECHNOLOGIES LTD. LAUNCHES NEW CORDEX™ HIGH PERFORMANCE RECTIFIER AT INTELEC 2010

VANCOUVER, BC. June 7, 2010 – Power Systems provider Alpha Technologies Ltd. launches its newest generation of high performance rectifiers at INTELEC 2010, Orlando, Booth 206, June 6-10, 2010.

The new Cordex HP CXRF 48-4kW rectifier is a backwards-compatible solution with the successful Cordex CXRF 48-3.6kW platform, providing significant advancements in performance and reliability, while reducing total cost of ownership and impact on the environment.

“Designed to set the standard for high performance rectifiers, the new Cordex 4kW reinforces Alpha’s commitment to designing smarter and greener power electronics for the future,” says Bill Killion, Product Manager-DC Solutions at Alpha. “For several years, the Cordex 3.6kW model has been both a very reliable and successful performer for a variety of critical powering applications around the world. The backwards-compatible Cordex 4kW is a significant enhancement on this platform making it ideal for upgrading the performance of existing sites or for future installations.”

The new Cordex 4kW rectifier features:

- Proven Cordex technology
- Backwards-compatibility with Cordex 3.6kW rectifier shelves and systems
- Near 95% efficiency, equating to increased OPEX savings, reduced carbon footprint and low cost of ownership
- High Performance (HP) Technology engineered to deliver high efficiency and high temperature operation
- Wide range AC input for global markets

Alpha Technologies Ltd. is an established leader in the design, manufacture, service and installation of powering solutions for the Telecom, CATV, Traffic, Security, Medical, Industrial, and Renewable Energy industries. The company offers a broad portfolio of high-quality, feature-rich solutions that can be customized to suit almost any application and environment offering the highest performance and best value in the industry. With a focus on being your power solutions partner, Alpha builds on over 30 years of experience to develop solutions that resolve customers’ unique powering challenges.

As a member of The Alpha Group, it is part of a global alliance of independent companies that share a common philosophy – to create world class powering solutions for communication, commercial, industrial and renewable energy markets.
