

*Your Power Solutions Partner*

## **ALPHA'S OUTDOOR UPS SOLUTIONS NOW FEATURED IN CALTRANS QUALIFIED PRODUCTS LIST**

**Vancouver, BC. April 11, 2011** – Leading power systems provider Alpha Technologies Ltd. is pleased to announce that it has earned “Qualified Approved Product” status from the California Department of Transportation (Caltrans).

Alpha met Caltrans’ requirements by making upgrades to both the physical and system settings of the industry leading, reliable Alpha FXM 1100 UPS Power Module and the Alpha Fail Safe Auto/Manual Maintenance Bypass Switch. Thanks to Alpha’s innovative design being both modular and firmware based, this was accomplished in a very short time period, maintaining our high standard of reliability.

“This marks just another of many significant milestones for Alpha within the traffic industry,” commented Dennis Bennett, National Manager for Traffic & ITS Sales at Alpha. “Caltrans establishes very high standards in the transportation industry. To have achieved approval after a very thorough review and testing process is a testament to the quality that Alpha offers in its products and services.”

Alpha Technologies Ltd. is an established leader in the design, manufacture, service and installation of powering solutions for the Traffic, ITS, Telecom, CATV, Security, Medical, Industrial, and Renewable Energy industries. The Company offers a broad portfolio of high-quality, feature-rich solutions that can be customized to suit almost any application and environment, offering the highest performance and best value in the industry. With a focus on being your power solutions partner, Alpha builds on over 30 years of outdoor power manufacturing experience to develop solutions that resolve customers’ unique powering challenges.

As a member of The Alpha Group, ATL is part of a global alliance of companies that share a common philosophy – to create world class powering solutions for communication, commercial, industrial and renewable energy markets.
