## **ARGUS ANNOUNCE NEW CHIEF OPERATING OFFICER**

Vancouver, Canada (April 13, 2009) - Power systems provider Argus Technologies Ltd. is pleased to announce the appointment of John Kalbfleisch to the position of Chief Operating Officer (COO).

John brings a wealth of experience in general management, engineering, operations, manufacturing, logistics, purchasing, supply chain and order management. Over the years, John has developed a strong continuous improvement mindset. His teams focus on developing best practices while still creating innovative solutions to customer and internal challenges. John also believes that employees deliver great results when empowered by good leadership.

Most recently, John was GM of Global Operations for Kodak Graphic Communications Canada. At Kodak, John was responsible for the Operations of the Worldwide Enterprise Solutions group and the Vancouver site that delivered a wide range of electro-mechanical devices for the Printing Industry.

Previous to this, John worked for Celestica and BCL Magnetics (a division of Tempel Steel) in various leadership capacities. He has a Bachelor of Mechanical Engineering and Management, and an MBA from McMaster University.

“We are very pleased to welcome John to the Argus team”, commented Argus Chairman of the Board, Mark Schnarr. “With his extensive business experience, he is well suited to leverage and enhance Argus’s reputation for excellence and innovation.”

Argus Technologies specializes in the design and manufacture of industry-leading DC power solutions for the telecommunications industry. In addition to complete custom power systems, Argus products include outdoor power enclosures, rectifiers, converters and system controllers featuring remote and local monitoring capabilities. Argus also offers EF&I, training, and 24/7 technical support through its dedicated service network.

As a member of The Alpha Group, Argus is part of a global alliance of independent companies that share a common philosophy - create world-class powering solutions for communication, commercial, industrial and renewable energy markets. Other members include Alpha Technologies, Alpha Industrial Power, Alpha Energy and G.B. Enterprises.
