ALPHA TECHNOLOGIES LAUNCHES INDUSTRY'S FIRST WEB-ENABLED DIN-RAIL MOUNTED POWER SUPPLY

Vancouver, BC. April 19, 2012 – Alpha Technologies Ltd., the power behind the evolution of wireless networks, today announced the launch of the Cordex PSU, a Web-enabled DIN-rail/wall mount DC power supply that provides 400 Watts at 24V or 650 Watts at 48V to enable customers to power critical loads in applications that are space or cost sensitive. Unlike other small end power supplies, the Cordex PSU includes a full-featured, Web-enabled controller with configurable I/O for remote monitoring and control.

Key features of the Cordex PSU include:

- Clean and reliable DC power for critical loads available in two options: 24V/400W or 48V/650W
- Internet ready and remotely accessible for complete and cost effective system and site monitoring
- Advanced battery charging, monitoring and testing to ensure availability of sufficient reserve power and prolonged battery life
- Configurable platform with I/O for site monitoring, user definable alarms and data logging and control
- Wide range operating temperature for installation in harsh outdoor environments
- Wide AC input operating range that satisfy a variety of global installation requirements

“The Cordex PSU is a low profile power supply targeted at small loads where space is constrained,” noted Mourad Chergui, Product Manager – DC Power and Shelf Systems at Alpha. *“Though intended for cost sensitive applications, the Cordex PSU includes many high end features such as a web-enabled feature-rich controller with configurable inputs and outputs for site monitoring. It is suitable for industrial applications as well as telecom.”*

The Cordex PSU will be showcased at Alpha Technologies Booth# 3919 at the International CTIA WIRELESS show on May 8-10, 2012 in New Orleans, Louisiana. For full specifications, visit the product page www.alpha.ca/cordexPSU.

The Cordex PSU will be available for purchase in August 2012. For inquiries, contact an Alpha representative at 1-800-667-8743 (toll free), 604-436-5900 (direct) or sales@alpha.ca.

Alpha Technologies Ltd. is an established leader in the design, manufacture, service and installation of powering solutions for the Telecom, CATV, Traffic, Security, Medical, Industrial and Renewable Energy industries. The Company offers a broad portfolio of high-quality, feature-rich solutions that can be customized to suit almost any application and environment, offering the highest performance and best value in the industry. With a focus on being your power solutions partner, Alpha builds on over 30 years of outdoor power manufacturing experience to develop solutions that solve customers' unique powering challenges.
