## Press Release

### ALPHA TECHNOLOGIES ANNOUNCES ACQUISITION OF POWERWORX LINE OF POWER DISTRIBUTION PRODUCTS

**Vancouver, BC.** August 31, 2016 – Alpha Technologies Ltd., the power behind the evolution of communications networks, today announced that it has completed the acquisition of the PowerWorx line of power distribution products from CommScope Inc. The PowerWorx line augments Alpha's broad range of power system and distribution solutions, providing customers with a one-stop shop for all DC power and distribution needs.

*"The acquisition of the PowerWorx line enables Alpha to offer end-to-end solutions for Critical Facilities and Outside Plant," said Rahul Baliga, Product Manager Power & Distribution Systems. "The PowerWorx line complements our secondary and primary distribution products, enabling the delivery of power from our world class 48Vdc power plants and batteries all the way to the load. The PowerWorx line has a longstanding legacy of meeting the stringent design and standards requirements of our customers, making it a perfect fit for Alpha's DC power system portfolio."*

Alpha is the only provider of DC power systems that can supply the complete end-to-end solution for the Central Office and Critical Facility market.

#### **About PowerWorx:**

PowerWorx® products fall under the category of "secondary power distribution" for telecommunications networks. The product line consists of a variety of fuse and circuit breaker panels.

As networks and the variety of powered network devices grow, so does the need for reliable power distribution and protection in multimedia broadband networks. The PowerWorx power distribution products have been engineered from the ground up to properly protect and distribute power to valuable, revenue generating network equipment.

PowerWorx panels are independently tested to comply with the industry's highest standards, including NEBS Level 3, UL, CSA, CE and IEC.

#### **About Alpha**

For 40 years, Alpha Technologies has been an industry pioneer and global leader in the design and manufacture of AC and DC power. Our distinctive excellence is the ability to innovate and quickly deliver optimized solutions for our customers' unique powering challenges in the Telecom, Cable Broadband, Traffic, Security, Industrial and Renewable Energy industries. Alpha's TL 9000 certified quality system, award-winning product strategy and continuous improvement/operational excellence program focuses on achieving complete customer satisfaction and supplying solutions of the highest quality, value and reliability.
