

CXCI+ Shelf Systems

Date: October 22nd, 2019
Model #: CXCI+ Shelf Systems
Part #: 7400233-003, 7400233-002, 7400233-001

Dear Valued Customer,

Alpha’s CXCI+ controller and shelf-based power systems have been providing reliable performance for the last several years. Due to consolidation of product lines and the end of development on the CXC controller software we will no longer be manufacturing new units of the CXCI+ shelf systems.

Alpha’s CXCI HP controllers are commercially available, backwards-compatible replacement options with numerous advantages over the legacy controllers. CXC HP series controllers enable AlphaQ technology allowing control and monitoring over multiple Alpha power solutions from a central location. Other advantages include:

- USB support for local management of upgrades, configurations, and backup/restore
- Configurable and common web user interface for all Alpha systems
- On-board I/O and compatible with Cordex ADIO peripherals
- Advanced features such as programmable logic, complex data logging, Power Save system efficiency optimization, SNMPv3 and other advanced security options.

More information is available on Alpha’s website: <http://www.alpha.ca/solutions/solutions-alpha-catalog/controllers-communications/controllers>

The CXCI HP controllers are backwards compatible in all legacy shelves and power systems which used the CXCI(+).

As a valued customer, Alpha is offering you a last-time buy opportunity to purchase CXCI+ controllers and shelf systems until September 1st, 2020, with a last time ship date of December 1st, 2020.

Although production of these systems is being ramped down, Alpha has a detailed inventory plane to support the power systems with replacements and repairs beyond the End of Life date.

The replacement of these systems is highlighted below with their modern CXCI HP variants.

PRODUCTS TO BE DISCONTINUED		REPLACEMENT PRODUCTS
CXCI+ Controller	7400233-003, 7400233-002, 7400233-001	0180056-001
250W Distribution Shelves	030-770-20-040, 030-770-20-050	030-770-20-440, 030-770-20-450
