

## Alpha Technologies Product End of Life Notice: Cordex 12V and 2V Battery Cell Monitor Peripherals

Date: July 7, 2015  
Model #: Cordex 12V BCM and 2V BCM  
Part #: 018-571-20-xxx and 018-569-20-xxx

Dear Valued Customer,

The Alpha Cordex 12V and 2V BCM product line has been part of the Cordex peripheral lineup for over 8 years. Unfortunately, due to unforeseen circumstances in our manufacturing and supply chain, Alpha will no longer be able to supply these Battery Monitor Systems. Alpha will continue to offer the PowerAgent Battery Monitor System which provides advanced battery monitoring capability including ohmic cell measurements as well as significant data logging and trending capabilities.

As a valued customer, Alpha is offering you a final opportunity to purchase this product, after which all Cordex 12V and 2V BCM production will be permanently discontinued. We will be happy to work with you to determine the quantities you may wish to order in this final purchase, based on a non-cancellable non-returnable purchase order, for delivery throughout the balance of this year. **All final orders must be received no later than August 15, 2015.** It is highly recommended that orders be placed as far as possible in advance of the deadline. We apologize for the short notice and will attempt to accommodate all requirements.

While Cordex 12V and 2V BCM sales will cease, Alpha will continue to provide technical support and service for this product for the foreseeable future (minimum of 5 years).

PRODUCTS TO BE DISCONTINUED		REPLACEMENT PRODUCTS	
018-569-20-040	Assy, Analog Mux, BCM, 2V Cells	Consult Alpha Factory for Part Numbers and configuration (application dependent)	PowerAgent SC and SC Mini Based Monitoring Platforms and Peripherals
