

Motorola Switched Mode 12V/24V Battery Charger

Date: Apr 17, 2018

Model #: 010-519-20-040, 010-523-20-040, 747-081-20-000, 877-145-20-000, 877-146-20-000

Dear Valued Customer:

Alpha Technologies' Switched Mode 12V/24V Battery Chargers have provided reliable performance for several years. However, due to a declining demand for this type of system, we will no longer be manufacturing new units.

As a valued customer, Alpha is offering you a last-time buy opportunity to purchase new units until September 1st, 2018, with a ship date no later than December 31st, 2018.

Although production for chargers is being ramped down, Alpha has a detailed inventory plan to support repairs beyond the end of life (EOL) date.

We are happy to assist you in determining the quantities you need to order in this last-time buy. We highly recommend that orders be placed as far in advance of the deadline as possible. We apologize for the short notice, and will attempt to accommodate all requirements. Please note: all orders require non-cancellable, non-returnable purchase orders.

No response to this notification is required. If you have any questions or comments regarding this discontinuation, please contact your Alpha sales representative or contact us directly at 1-800-667-8743.

Sincerely,

JD Fraser
