Date: December 18, 2023  
Model #: Cordex® HP LPS04, FLPS04-AC, and FLPS08

Dear Valued Customer,

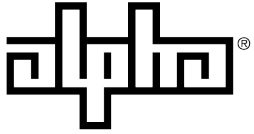

As part of our on-going efforts to deliver the most valued customer experience, we have streamlined our Cordex® HP LPS/FLPS product series to offer only Cordex® HP LPS36 line power system shelves. The decision to move forward with this approach was based on several factors including very long lead-times, higher material cost, and low sales volume. Cordex® HP LPS04, FLPS04-AC, and FLPS08 are typically used for remote line powering applications where the number of remote line power channels is limited to four channels.

EnerSys is initiating this end of line notification for the following six items effective December 1, 2023.
