

## Product Bulletin

# New FlexPoint AX Series Power Converter

The **FlexPoint AX Power Ring and Power Converter System is the first product to be designed and listed to the new UL Standard, UL 2745**. This standard covers wireline and wireless communications equipment, or power supplies powering such equipment, installed in a meter socket adapter.

These devices are associated with network communications equipment powered at the premises and these devices may be connected on the line side of the service disconnect in accordance with the National Electrical Code, NFPA 70-2011, Section 230.82(9).

The FlexPoint AX Power Ring and Power Converter System are **rated for 22kA short-circuit** (when installed in a suitably-rated meter socket). For more information and updated pricing, please contact your Alpha Regional Sales Manager.
