Alpha Technologies Software Update Notification: CXC HP Software Application v5.0

Date: September 24, 2018
Model #: CXC HP Software
Release: v5.0

Alpha Technologies is pleased to announce the release of our Cordex™ HP controller software version 5.0. [A video outlining the new features can be found here.](#)

New Features and Improvements

- Power Flow view for the DC System to visually show system status and valuable information
- Support for HTTPS secure web server protocol
- Support for RADIUS remote authentication protocol
- Allow user customizable alarm names and the ability to hide default name/id strings
- Added ability to set the thresholds used to decide when a battery is charging or discharging for better support of systems with light loads and large battery capacities
- Added drop down navigation links to the menu bar
- The format of the application file has been enhanced to prevent tampering and improve transferability through email servers, firewalls and PCs

All software updates and the latest user manual can be found on our website at alpha.ca.
