

CXPS DC-DC Converter Systems

Date: September 25th, 2019
Model #: DC-DC Converter Power Systems
Part #: 0530039-001, 053-996-20-000, 053-997-20-000

Dear Valued Customer,

Alpha's CXPS DC-DC Converter Systems have been providing reliable performance for the last several years. Due to declining demand for standalone DC-DC converter systems, Alpha will no longer be manufacturing the standalone integrated power systems.

As a valued customer, Alpha is offering you a last-time buy opportunity to purchase CXPS DC-DC power systems until September 1st, 2020, with a last time ship date of November 1st, 2020.

Although production of these systems is being ramped down, Alpha has a detailed inventory plan to support the power systems with replacements and repairs beyond the end-of-life date. Alpha will still be offering the value-add service of integrating the DC-DC converter shelves into custom/configured power systems as requested.

PRODUCTS TO BE DISCONTINUED	
48-24	0530039-001
24-48	053-996-20-000, 053-997-20-000

No response to this notification is required. Should you have any questions or comments regarding discontinuation(s), please address these to your Alpha sales representative or contact us directly at 1-800-667-8743.

We will be happy to work with you to determine the quantities you may wish to order in this last-time buy. It is highly recommended that orders be placed as far as possible in advance of the deadline. We apologize for the short notice and will attempt to accommodate all requirements. Note that all orders require non-cancellable, non-returnable purchase orders

Sincerely,

JD Fraser
